Address: Ghaziabad, Uttar Pradesh, India

Synopsis

Dedicated Clinical Research professional with experience in Clinical Trial Operations and Clinical Data Management. Proven ability to support clinical studies through data validation, discrepancy resolution, study documentation, regulatory compliance, and EDC systems. Adept at collaborating with cross-functional teams to ensure high-quality clinical data, successful clinical trial execution, and compliance with ICH-GCP guidelines.

Work History

2024, March to Currently

Clinical Data Management Associate

Clinical Research Network India, Noida

- Managed end-to-end clinical data management activities, including data collection, validation, cleaning, and final database review in compliance with study protocols, SOPs, and regulatory requirements.
- Supported Clinical Trial Operations through study coordination, cross-functional collaboration, and maintenance of study-related documentation.
- Prepared and Reviewed **Case Report Forms (CRFs)** during the CRF development phase and review CRF's throughout study conduct to ensure protocol compliance, data accuracy, and completeness.
- Assisted in the preparation and review of **Ethics Committee (EC)** submission dossiers by ensuring complete and compliant study documentation.
- Trained and mentored new team members on data management processes, EDC systems, SOPs, and quality standards.
- Designed and implemented **Edit Check Specifications** and data validation rules to improve the accuracy, consistency, and completeness of clinical trial data.
- Performed data discrepancy identification, query generation, tracking, and resolution using **Electronic Data Capture (EDC)** systems.
- Reconciled external data, including laboratory reports, ECG reports, and immunogenicity datasets, with the clinical database to ensure data accuracy, consistency, and integrity.
- Conducted routine and final quality control reviews and data cleaning activities to ensure high-quality datasets and database readiness.
- Prepared data listings and support data review activities for interim and final study analyses.
- Performed **preliminary data quality checks** using Microsoft Excel, including data comparison, summary statistics (e.g., mean and median where applicable), and trend analysis to support clinical data review.
- Compared **baseline and end-of-study datasets** to identify inconsistencies, missing values, and data trends before submission to the Biostatistics team.
- Supported the Biostatistics team by providing clean, verified, and analysis-ready datasets for statistical evaluation.
- Utilized e-Meddec EDC and IWRS (Interactive Web Response System) for clinical data management, subject tracking, and study-related activities.

- ✚ Developed, reviewed, and maintained study documentation, including **Data Management Plans (DMPs), Annotated CRFs, Edit Check Specifications, User Acceptance Testing (UAT) documents**, and study-specific guidelines.
- ✚ Assisted in maintaining **Trial Master File (TMF)** documentation and ensured compliance with ICH-GCP, study protocols, SOPs, and regulatory requirements.
- ✚ Supported both remote and on-site **Source Data Verification (SDV)** activities, verifying source documents **against CRFs and EDC** records to ensure data accuracy, completeness, and protocol compliance.
- ✚ Supported **database design** and review activities in alignment with study protocols, CRFs, and regulatory standards.
- ✚ Applied **strong analytical and critical thinking** skills to identify data trends, troubleshoot issues, and support continuous process improvement.
- ✚ Collaborated with Clinical Operations, Data Management, Biostatistics, Medical Monitoring, and other cross-functional teams to ensure timely study execution and high-quality clinical data.

----- Education

M.Sc. in Biotechnology | 2023

Chaudhary Charan Singh University, Meerut

B.Sc. in Biotechnology | 2021

Dr. K.N. Modi Institute, Modinagar

Affiliated to Chaudhary Charan Singh University, Meerut

Intermediate (CBSE) | 2018

DHT Saraswati Vidya Mandir, Ghaziabad

Matriculation (CBSE) | 2016

DHT Saraswati Vidya Mandir, Ghaziabad

----- Core Skills

- ✚ Clinical Data Management (CDM)
- ✚ Clinical Trial Operations
- ✚ Data Validation & Edit Check Specifications
- ✚ Data Cleaning & Query Management
- ✚ Electronic Data Capture (EDC) & IWRS
- ✚ CRF Review & TMF Management
- ✚ Source Data Verification (SDV)
- ✚ External Data Reconciliation
- ✚ Clinical Documentation (DMP, Annotated CRF, UAT)
- ✚ Regulatory Compliance (ICH-GCP & SOPs)
- ✚ Microsoft Excel (Data Analysis & Listings)
- ✚ Cross-functional Collaboration
- ✚ Quality Control & Data Integrity
- ✚ Critical Thinking & Problem Solving

Technical Skills

- ✚ **EDC Systems:** e-Medidex EDC
- ✚ **Clinical Systems:** IWRS
- ✚ **Microsoft Office:** Excel (Advanced), Word, PowerPoint, Outlook, SharePoint
- ✚ **Clinical Documentation:** DMP, Annotated CRF, Edit Check Specifications, UAT, TMF
- ✚ **Guidelines:** SOPs, Protocol Compliance, GCDMP, 21 CFR Part 11, ICH-GCP

Achievements or Certification

- ✚ 2026 | Renew GCP (Good Clinical Practice) – NIDA Clinical Trial Network
- ✚ 2025 | Certification in Clinical Data Management – Bangalore Clinical Research Institute
- ✚ 2025 | Important Documents & Reports in Clinical Trials – CliMed
- ✚ 2025 | ICH GCP E6(R3) – Summary of Changes
- ✚ 2024 | GCP (Good Clinical Practice) – NIDA Clinical Trial Network
- ✚ 2023 | FTIR Instrumentation Training and Analytical Development
- ✚ 2023 | Participated in International Conference on Innovative Approaches in Basic & Applied Science for Societal Development (iAbAsSd-2023)

Languages

- ✚ English (Professional Working Proficiency)
- ✚ Hindi (Native Proficiency)
